

Speedy Design Thinking

Rapid Prototyping

Prototyping: Bodystorming, Paper Prototyping

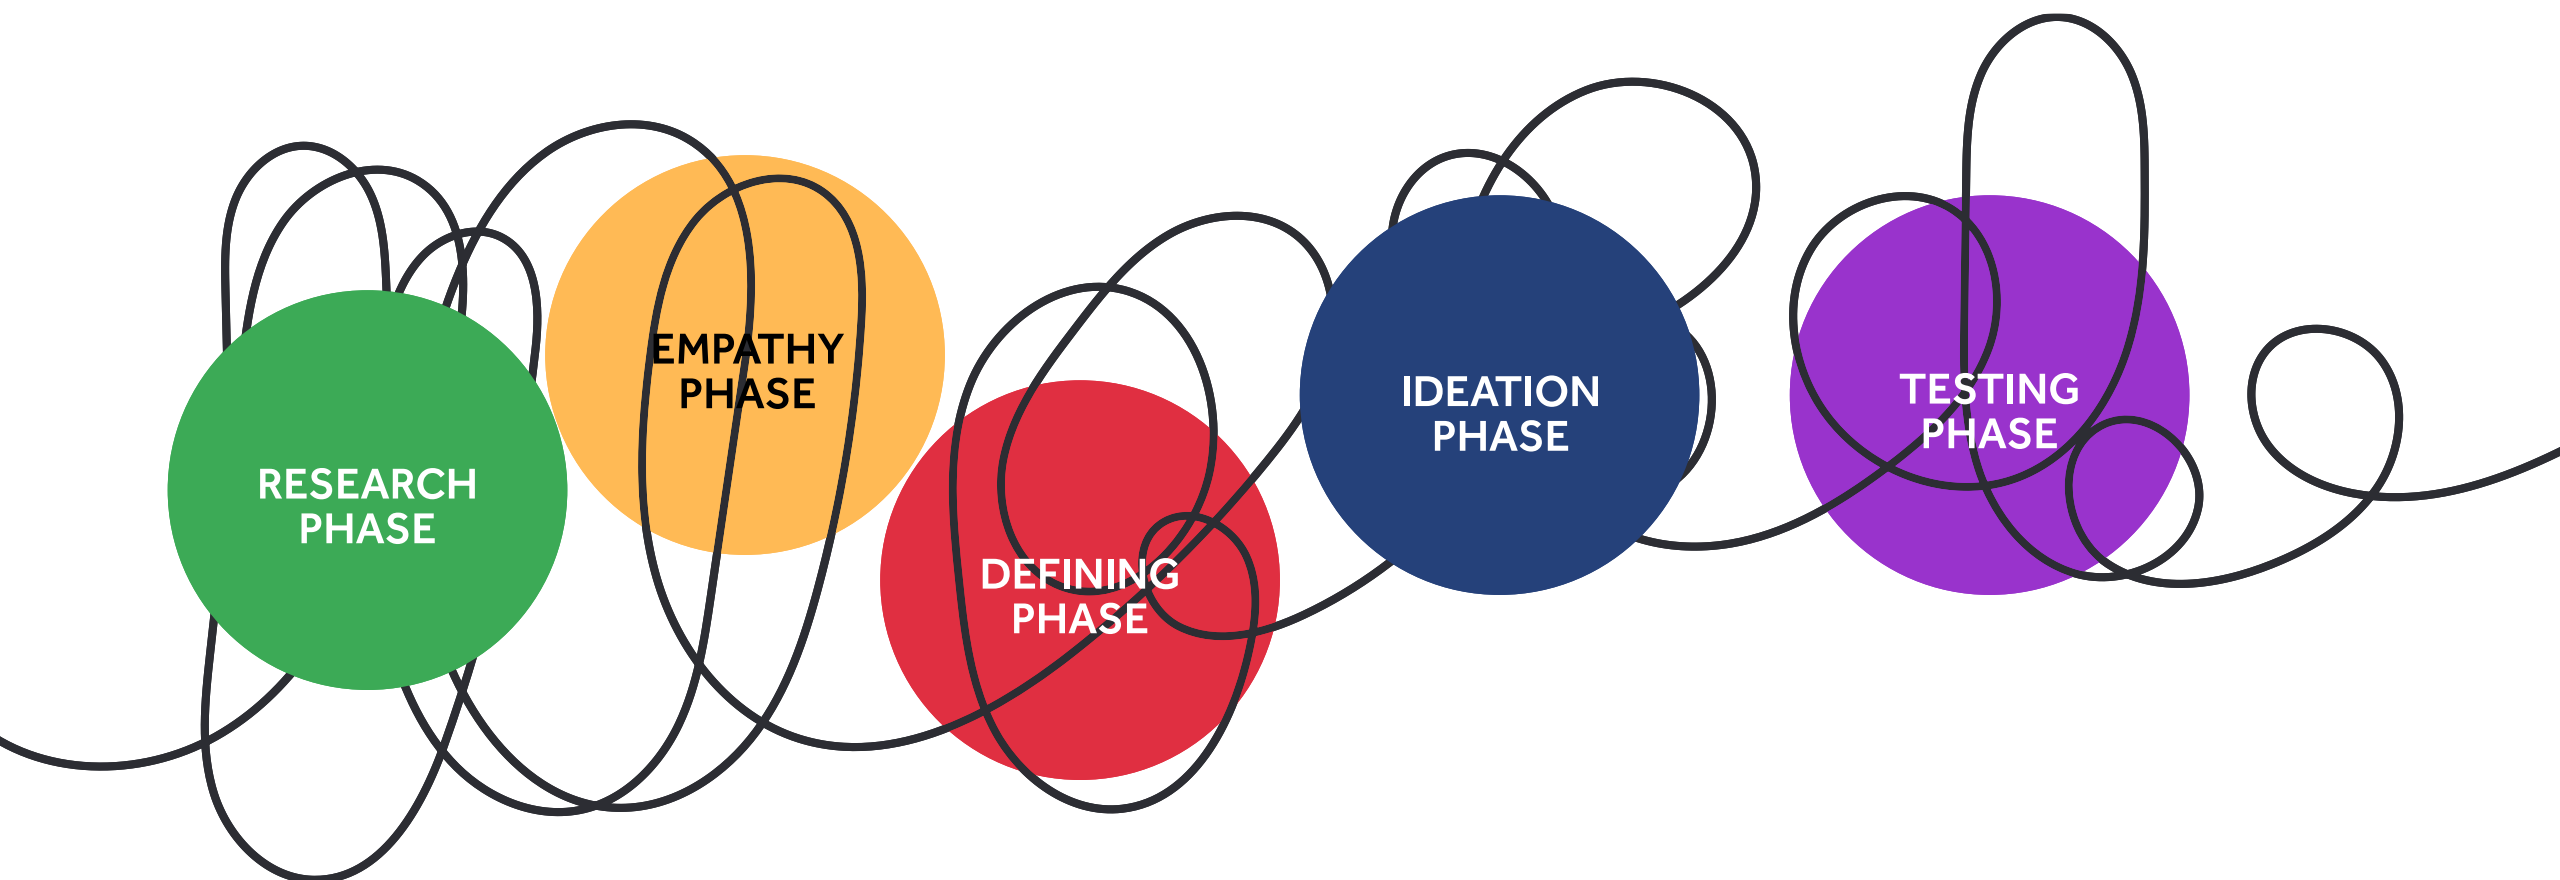

Prototyping: Roleplaying, Wizard of Oz

Prototyping: Why do it?

- Empathy gaining
- Exploration
- Testing
- Inspiration

Your Task

Design (or redesign) a hat or headgear to suit Santa Claus (*designing for crazy characters*)

Research

Do some research!

- Find out as much as you can about this character.
- What do you know about them?
- What jobs do they do?
- What are their likes and dislikes?

Write down a list or create a visual that illustrates who the person is.

Define

With the research you have collected, **fill out the statement:**

“Our hat/headgear will be designed for (the user), and we will focus on (the context).”

Present your findings!

Briefly introduce the character,
Where are you most likely to find them,
Something surprising about them.

Ideate

Brainstorming Rules

- Quantity over Quality
- Suspend Judgement
- Build on other ideas
- Wild ideas welcome
- Everyone participates

Ideate

Sketch and **prototype** ideas as you can for what you would want in your hat/headgear.

Make as many as you can!

Feedback

Share your ideas with another table

Get feedback! What changes can you make to your prototype?

Iterate!

Make changes to your prototype based on the feedback you received from your classmates.

Feedback

Present your ideas to the class

Don't forget to give each other more feedback!
