

UQSchoolsNet

CYBER RESILIENCE

The UQSchoolsNet team is here to support you every step of the way as you enhance your preparedness through realistic scenario-driven simulations. Our dedicated team is available to offer guidance and share knowledge, ensuring you are well-equipped to plan and prepare for any situation through Tabletop Exercises (TTX) combined with Cyber Incident Response Plan (CIRP) development and review.

KEY BENEFITS

- **Real-World Preparedness:** Engage in realistic simulations that mimic cyber-attack scenarios, enabling teams to fully understand their roles and respond effectively under pressure.
- **Effective Communication:** Strengthen coordination and communication channels across all levels, ensuring a unified and rapid response when incidents occur.
- **Continuous Improvement:** Proactively identify vulnerabilities and operational gaps, allowing for ongoing refinement of strategies to counter emerging threats.
- **Risk Mitigation:** Reduce potential damages, safeguard school reputation, and maintain compliance with industry standards and regulatory requirements.

What's Included?

Tabletop Simulation Exercises

After-Action Report and Certificate

Tailored Incident Response Plan

Training and Support
